JON RITMAN AND BERNIE DRUMMOND PRESENT DOUBLE TROUBLE...

•ENTHRALLING•COMICAL•DAZZLING•

Hi! My name's Mr. Head. Some say I'm the one with the brains but I don't think my flat footed friend would agree. I'm a real sharp shooter, but without my pal Mr. Heels I'd get nowhere fast...or slow! I can jump like a flea and even glide but Heels is the Daley Thompson of the two of us – he's FAST! Together, if we can find each other, we really do make an awesome twosome, and that's the only way we can overcome the emperor Blacktooth. The last time we entered Castle Blacktooth we found the crowns of THREE of the supressed kingdoms but by that time I'd run out of doughnut ammunition and my buddy was lost somewhere in the Safari world – it was the closest we had come to defeating that rapscallion – we were jumping for joy, splitting our sides, dying with laughter...we were Head over Heels!

A flight into a nightmare— MINDFIGHTER

The year is 1987; Robin, an 11 year old boy with phenomenal psychic powers is in a trance. His mind has left his body and travelled through time, taking him to a post-holocaust Southampton ruled by Fascist forces — The System.

Everywhere is bare, scorched and desolate. He is totally alone!

The friends he left behind are powerless to help him as they stand over his inert body, watching transfixed as his fluorescent green eyes reveal like a TV screen the horror and devastation of his surroundings.

Will Robin survive?

Can he blow up the enemy generator, defeat The System, free the prisoners and return to the present?

He has just 24 hours to save the world!

Based on a simplified but in principle correct model of the problems of raising and using money, YES CHANCELLOR allows you to try to control inflation, taxation, interest rates, social services, strikes, wage claims, foreign trade, etc. The object of the game is to help your party stay in power by winning an election every five years; manage it for fifteen and you'll retire with a Life Peerage! One of 8000 Plus's recommended programs, YES CHANCELLOR is written in Basic so that you can explore how the program works. *PCW 8256, 8512, 9512, CPC (disc or tape) £14.95 IBM PC £17.50. Please add £1.00 P&P*

GIANT KILLER is a mathematical adventure game which is used in thousands of British and Australian schools and is another 8000 Plus BEST BUY. Plant it and the rest of the adventure opens up. Puzzles gradually increase in difficulty covering National Curriculum investigations such as tessellations, prime numbers, topology, time and space, logic, etc. A great way to give your kids (and yourself) a maths challenge! Suits ages 10 to GCSE. *PCW 8256, 8512, 9512, CPC (disc)* £14.95, IBM PC £17.50

Designed in co-operation with British Aerospace, Strike Force Harrier puts you in the pilot's seat of one of the world's most exciting fighter planes. With the most realistic instrument display (albeit just a little futuristic) and handling you're likely to see on an 8-bit simulator, the program combines accurate flying and strategic gameplay – with an element of shoot-em-up to keep you on your toes.

You must plot your way to enemy HQ, defending yourself from ground and air attack using all the sophisticated weaponry at your disposal – cannon, bombs, and Sidewinder heat-seeking missiles, as well as chaff and flares to put the enemy off your tail. But don't forget to keep moving up your landing sites and ground crew, or you'll find yourself stranded without fuel or arms!

£19.95 including pilot's manual and map

"The jewel in the crown of this program is... the ULTIMATE QUIZ EDITOR which enables you to create your own quiz files. It is well laid out and simple to use" AMSTRAD PCW Magazine

"Another of the program's major strengths lies in it's Edit program which allows you to devise your own quiz files. It's quite easy to do. You can therefore adapt it and make quizzes to test your children on Chemistry or Maths or whatever" 8000 Plus

"Ultimate Quiz is surprisingly versatile.... .....offers a seemingly endless supply of Trivial Pursuits style multiple choice questions. Few of them are obvious and your answering keypress is rarely a confident one" 8000 Plus

"To avoid questions being repeated (and this is where a lot of rival programs fall down) the program will keep a record of the ones which have been asked. Only if the quiz is played long and hard will some of the questions start to provoke deja-vu" 8000 Plus

NEW! **SPORTS STRATEGY**

HIGH QUALITY LEISURE SOFTWARE THAT YOU AND YOUR PCW DESERVE

For too long now, the range of software available for the Amstrad PCW has reflected its image as a small business machine, and the range of High Quality LEISURE software has been extremely limited. That's why CODA SOFTWARE now announce SPORTS STRATEGY, an expanding range of software which tests your abilities to the limit, not just at one sitting, but again and again, providing an on-going challenge which we think is fairly unique in the world of software today.

WORLD OF SOCCER

International management is the ultimate challenge in soccer. Building a squad of players who can overcome the ball playing skills of Brazil, the fluid play of Holland, the organisation of West Germany and the counter-attacking of Italy, demands an insight into the game rare amongst managers let alone fans.
Do you exploit a team's weaknesses or play to your own strengths? Do you attack down the flank with wingers, or pierce the centre with powerful midfield running? Do you play a flat back four, or use a sweeper? In **"WORLD OF SOCCER"**, players are not merely defined as attackers, defenders or midfield players, but as goal poachers, play makers, ball winners, wingers, left, right and centre backs, sweepers (19 types of player in all).
You can choose to manage any one of 33 European squads. The four U.K. countries come with 16 man squads already defined,and can be increased to 36 with players of your own choice. A customisation program allows you to create squads of your own for any of the 33 countries in the game.
Guide your squad through a four year period encompassing the qualifying stages and Finals of both the European Championships and the World Cup itself. Use friendly matches to develop your strategy and learn to match the in-form players at your disposal. Success is there for the taking, but it will need to be earned.

HEAD COACH v3

American Football - Where the war on the field is often decided by the decisions of a lonely figure pacing the sidelines. He's the Head Coach, and while the mayhem on the field looks unplanned, he knows that his carefully crafted gameplan is beginnig to work, and the decision to use the extra defensive lineman on first down is placing devastating pressure on the opposition's star quarterback. It's your first year as a Head Coach in the NFL, and in the short time before the season gets under way, you're going to have to get to know your 45 players well enough to avoid embarrassment in your first regular season match. The likes of the Chicago Bears, the Washington Redskins, the 49ers and the L.A. Raiders lie between you and Superbowl glory.
Your task will be helped in several ways. Firstly, a wealth of statistics are available to you, logging the match performance of each player. Rigorous training sessions and time trials can help you to sift out the players who just don't have what it takes anymore, and the college draft will give you the chance to find that star player you so desperately need.
If your already a fan of the Gridiron, then **"HEAD COACH v3 "** will test how much you really know, and if you're just a beginner, then its the ideal way to learn. A 48-play playbook will teach you everything you need to know. In fact there's only one thing that can prevent you from winning the Superbowl, and that's YOU!

SIRWOOD

CUANDO UN VIDEOJUEGO SE CONVIERTE EN AVENTURA

El gran Maestro Tarok, fundió un escudo dorado e hizo inscribir en él la siguiente leyenda:
«QUINTO DIA DEL QUINTO MES DE LA QUINTA ERA»
Pero el cuarto mes de la quinta era, el mago Amargol, amo y señor del castillo de los bosques, robó el escudo del templo.
Fué el primer dia del quinto mes, cuando Arn Sirwood, el pastor de Nargoot, decidio ir en busca del escudo.
A cada paso que damos un nuevo peligro nos acecha, un nuevo conjuro que destruir, una nueva magia que anular. Lugares insopechados, duras noches en el bosque, el castillo de Amargol, una lucha sin igual. Sirwood y tú debereis utilizar todo vuestro ingenio y habilidad. El resto de la historia ya la conoceréis porque depende de vosotros.

Esta vez nuestro querido Bacterio, ha inoculado un nuevo suero a las gallinas de una granja, con Dios sabe qué intenciones. El resultado es que una de estas gallinas ha saltado hasta el despacho del Super, y se ha tragado un valiosísimo microfilm, que contenía los resultados de la próxima quiniela. Para qué mencionar, que el Super, desesperado, mandó llamar a los dos superagentes especiales de la TIA.
Desgraciadamente estos agentes, se hallan de vacaciones en Pernambuco, con lo que el Super ha tenido que recurrir a las dos fregonas, esto... a Mortadelo y Filemón.
Pues aquí los tenemos de nuevo persiguiendo gallinas y pasándolas por la sartén para buscar el microfilm. Lo que no saben, son las nuevas propiedades, que han adquirido los dichosos gallináceos con el nuevo suero...
